Subject: Postponement of Thesis Submission

Dear Mr. Asram bin Sulaiman.

This is to bring to your kind consideration that due to some difficulties I am not able to submit my thesis before the deadline (15/03/2021). I finished my viva last year on April and the result was re-examination. In order to submit my thesis I need to pay RM2000 to the university. Unfortunately, I cannot afford this amount right now. As you know since last year because of Covid-19 situation, so many people have lost their jobs and it is really hard to find a proper job that can support our living expenses, so I was not able to save some money for re-examination fee. Nowadays, finding a job has become a very difficult process especially for internationals living in Malaysia, because the priority is with locals and I totally understand.

Since 17 or 18th of February, I got sick with all the symptoms of corona virus. But because it has been a long time that traveling between states are prohibited I was not able to come to Johor for visa renewal and I do not have a valid visa in my passport or valid insurance and could not afford to go to any hospital or any specialist and I had to stay at home under self quarantine. On the other hand, I am really worried about the deadline of my thesis submission. I really worked hard in order to be here and get my PhD degree. I kindly request you to please postpone the date for One or Two month.

The situation is really dire and I really appreciate your help.

Assalamu'alaikum Ms Syarifah Nor Faralida

This is my short comment on Arash's thesis corrections:

I have requested from Arash to email to me his thesis corrections latest by 31 January 2021. First version of corrections was submitted to me on the 13th of February, but the list of corrections was not sent together and I could not download the softcopy of the thesis. This version of thesis corrections has been proofread by a proofreader.

I have requested Arash to email me the file on 17th February but I did not get any reply. I emailed him again on the 25th February to set up an online meeting to check the corrections. Again, I did not receive any reply. I am quite surprised because he normally replies to my Whatsapp messages promptly.

Finally I got a reply from Arash on the 27th February informing me of his unstable situation. (Attached are the Whastapp screen shots).

The thesis with the list of corrections was sent to me again on 9th March after his situation got better.

The thesis corrections need to be read thoroughly and revised to ensure that they meet the corrections as in the Chairperson's report in which I expect will need at least one month.

Thank you.

Dr Noorminshah
